

X-Tex Heavy Finnfill 1,97 Clo Lady

The X-Tex Finnfill underwear is elastic and watertight, and it provides perfect thermal insulation. It is manufactured of a four layer material, with Finnfill fibre as insulating layer, and breathable watertight X-Tex membrane as intermediate layer. The surface is of elastic and slippery tricot fabric, and the inner lining of fleece. The heavy modell is manufactured specially for extrem cold conditions.

The isolation of X-Tex Finnfill is measured in international Clo-units that shows the real isolation of the suit. In heavy modell the clo grade is 1,97. The breathable and watertight structure of the suit is patented.

The suit has for example vent holes in the armpits and on the left arm assure the free circulation of air inside and outside of the underwear, and allows air control of the dry suit at any ascent speed, zipper with double locks, chest pocket with zipper, large thigh pockets, elastic fabric in collar, sleeves, ankles and a wide waist band. Thumb loops and leg retainers eases dressing.
